## Eureka Event Of Excellence

### There we go!

Hereby we present to you the definitive programme for the Event. Date: June 18.  
The programme is split into two parts. It is possible to attend both parts.

### PART 1: Afternoon programme

- |          |  |
|----------|--|
| 03.00 PM | Barking on the pleasure boats. There will be a guard watching your cars at the parking place.  |
| 03.30 PM | The boat starts with a small cruise through the harbour of Rotterdam. Technically and commercially interested people are able to attend the technical presentation about the PA system, held by mr. Ben Kok (acoustic matters), Rene Kuipers (electric matters) and Jos Peters (commercial matters). This presentation will start at 03.45 PM. The presentation will be held in English. |
| 04.45 PM | Exclusive diner 'Sir Lancelot' at the boat.  |
| 05.30 PM | The boat will end the cruise on location where the concert will be held. It will be possible to have a close look at the setup of the system, the power supply etc.  |
| 06.30 PM | (approximately) return to the barking place where more guests will join us. Of course the boat will take another route.  |
| 07.30 PM | Arrival at the barking and parking place. People that want -or have- to leave can step out at this moment.   |

### PART 2: Evening / night programme

- |          |  |
|----------|--|
| 08.00 PM | Barking of all other guests. Total number approximately 400. |
| 09.00 PM | Cruise back to the location where the concert will be held.  |
| 11.00 PM | Concert! (untill midnight)                                   |
| 00.30 AM | Return to parking place (estimated arrival 01.30 AM); PARTY! |
| 02.00 AM | End of PARTY!!   |

All consumptions will be free of course. During the cruise and the party a band will play music etc. We do have to know as soon as possible if you do attend one of the programmes and with how many guests you will attend. I hope you do understand that we have to make arrangements and that fast response is needed.

Use the fax form on next page to reserve tickets. We will confirm your reservation!

## Eureka Event Of Excellence

The Eureka Event will take place at **June 18th**. It is organized by the Dutch Ministry of Economic Affairs. Eureka is an European technology stimulating program. This year The Netherlands has the Chairmanship. Our chairmanship is concluded with a huge event. During the evening, an open air concert of Vangelis will be held from 23.00 - 24.00 including a large laser- and lightshow .

Stage Accompany will supply **56 Performer 2-26** sets to reinforce Vangelis. This means about **500.000 Watts RMS** amplifier power (700 Kw peak):

- **224** bass cabinets type SA 4816
- **224** mid-high cabinets type SA 4826
- **112** Power-2 amplifier racks (224 PPA 1200 amplifiers total!)
- several PPE 2410 EQ's to drive the amps
- Stage Control computer

Over **200.000** spectators will witness this happening!

We are trying to get the concert registered as the biggest (computer controlled) sound system ever used in the world (Guinnes book of records).

If you are interested to come with possible/existing clients, please let us know.

We are planning the following program; however some changes are still possible:

After arrival at the airport or with your own car(s) etc., we will go to the harbour where a special boat is waiting. We will make a small cruise through the harbour. Then a short technical presentation of the sound system will be held by Ben Kok. After that it will be possible to have a close look at the system (under reservation that we will have permission of the harbour; we will let you know the details asap). Then, we will have dinner and some time to exchange experiences. Finally at 23.00 hours the concert will start.

This is in brief the idea. Please let us know if you are interested to come to Holland as soon as possible. The definitive program will be available soon through a newsletter.

As the organization of the program will be done by a professional marketing agency we believe we offer you an unique oppertunity to show your clients the qualities of the Performer system, especially for (large) rental companies.

We are proud that we aquired the job as we had serious competition! We thank you all for your co-operation. The TV registration will appear in 19 countries!....Please give us your reaction as soon as possible.

## Pro Sound News

In the May issue of Pro Sound News Europe, we advertise with the Performer system in full color. Be aware!
