

# SA Performer series

## SA 4826 full range cabinet

### Reinforcement Loudspeaker

### Technical Specifications

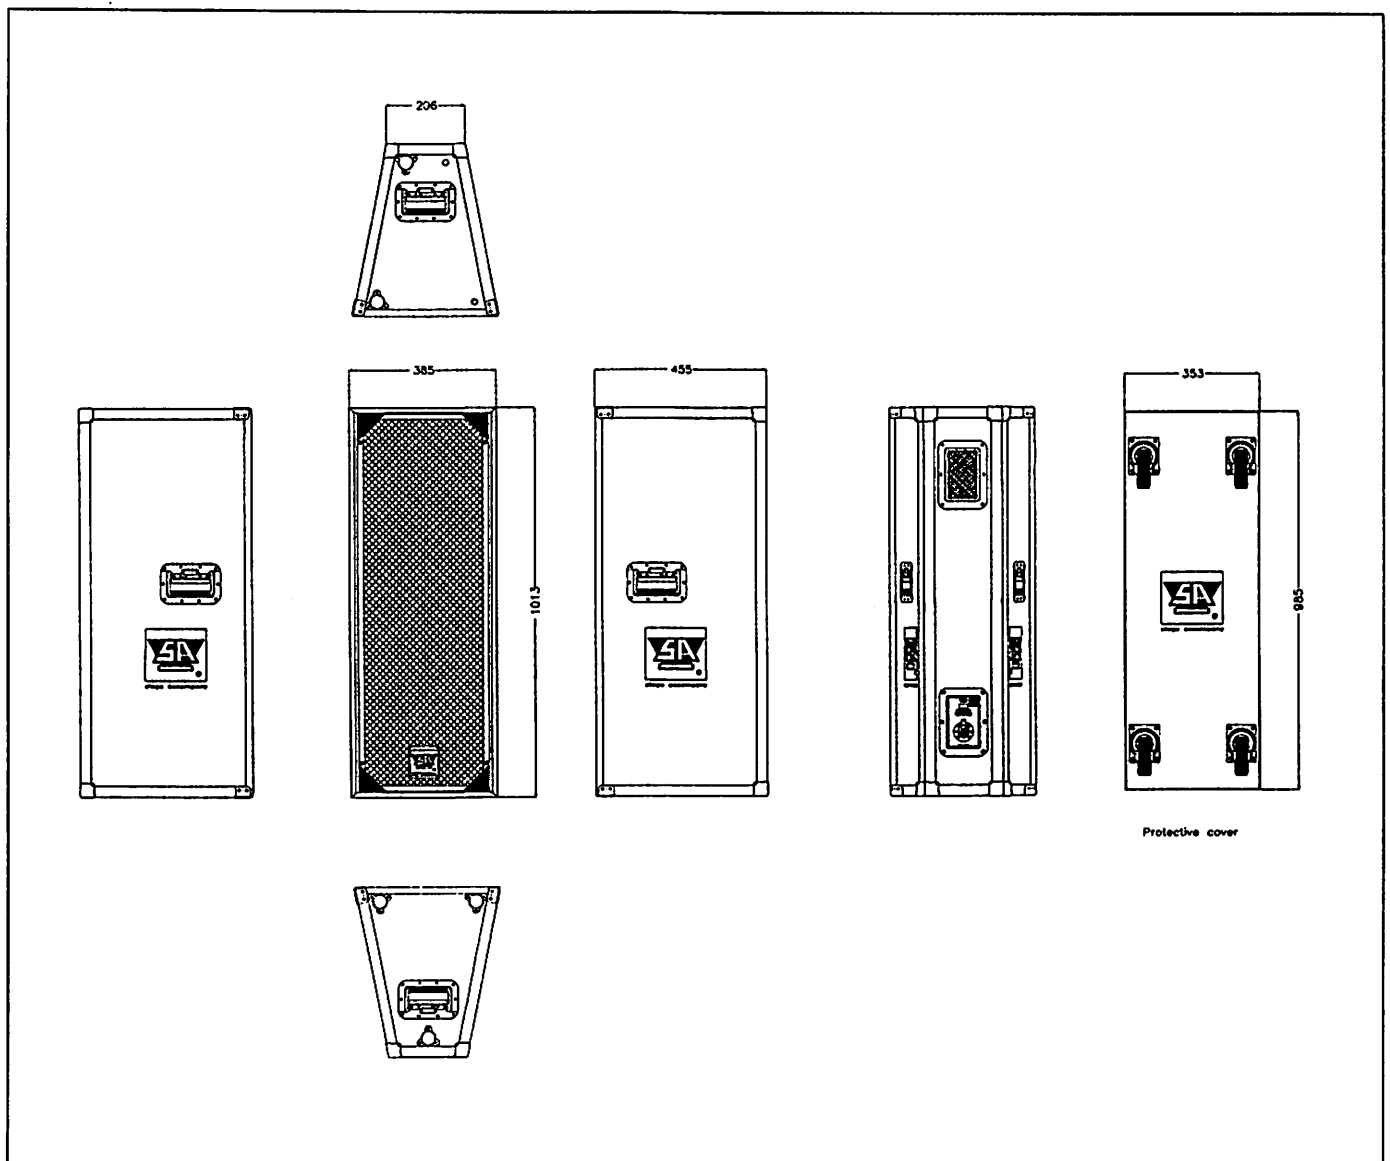

#### SA 4826 full range cabinet

The SA 4826 is a compact, high-power full range cabinet capable of producing high sound pressure levels with very low distortion. This is achieved by using two SA 1202 12" low-mid drivers and the SA 8526 Compact Driver.

#### Available options:

- Flightcased version;
- Dolly for transportation including castors;
- Tube stand adaptor for Performer series subwoofer cabinets;
- Rigging system.

Each of these options may be ordered separately.

Protective cover

Physical dimensions of the SA 4826; flightcased version. The protective cover/dolly for transportation is shown at the right side.

- High acoustic output
- Compact rugged design
- Equipped with two SA 1202 high efficiency drivers and the SA 8526 Compact Driver
- Unequaled transient response
- Road-proof in cased version
- Prepared for use with the SA 4816 subwoofer through position plates (cased version)
